## THE WINE LIST

Our wine list is a dynamic, contemporary list that is always evolving. Cooee aims to recognise and support wine producers across the country, with a strong focus on Western Australian wines. Every month we showcase one hero producer by curating a list of their small batch releases for our guests to taste and explore. The winemaker joins us on the first Wednesday of the month to ignite our Cooee classroom with an intriguing College of Grapes session. We invite you to explore outside of your comfort zone and start your own wine journey - our sommelier team is here to guide you.

Our wine list is arranged according to increasing intensity in body and the following tags and classifications are used across our list.

ECOLOGIC [EC] | BIODYNAMIC [BIO] | MINIMAL INTERVENTION [MI] | VEGAN [VE]

### FRANKLAND ESTATE

The Frankland River region in South Western Australia is a truly magical part of our state and nation, and it holds a very special place in our hearts. We are extremely proud of how Frankland Estate works in harmony with our environment and the natural elements, to create exceptional wines which express our remarkable sense of place.

Their appreciation for the environment ensures their wines and their vineyards continue to grow with our land in accordance to the cycles of nature.

This approach includes organic viticulture, carefully nurturing the health of the soils in the vineyard, and only taking from their land as much as can be later replaced by natural processes. Their passion for sustainable farming was recognised in 2009, awarded an organic certification.

The consistency of depth, complexity and intensity of flavour in their wines has reinforced their belief in this approach, and amplified their respect for our extraordinary natural environment.

		GLS 100ml	BTL
